March 12, 2018

Greetings 6th Grade Families,

I am writing to inform you of fantastic news: we have hired Mr. Peter Bredenburg as our new 6th grade Math teacher! Mr. Bredenburg has been a Denver Math Fellow, at Hamilton Middle since 2016. A bit of background on Mr. Bredenburg: He was born in New Orleans, Louisiana, and spent time in New Jersey, Illinois, North Carolina, and Georgia before making his way to Denver. He studied economics in college and in graduate school at the University of North Carolina at Greensboro. After spending eight years working as an analyst for Home Depot and INVISTA in Atlanta, he moved to Denver with his wife and decided to move into the education sector. He is excited to get to work with everyone to end the year as successfully as possible. Mr. Bredenburg has been working with your scholar for the last two weeks and we are most excited to formally hire him as he continues to positively impact our scholars' math learning. We thank you for your continued patience and please do not hesitate to reach out to me at Whitney_Weathers@dpsk12.org with additional questions.

Thank you,

Whitney Weathers, AP of Teaching and Learning
