

Design Like A Girl

Girls Mentor Program

AIA CO and NOMA with AIA|DC & The Washington Architectural Foundation

The American Institute of Architects CO J.E.D.I. committee and National Organization of Minority Architects (NOMA) CO are bringing **Design Like a Girl** mentor program to Colorado!

What

Design Like a Girl introduces adolescent girls to architecture and allied professions within the design and construction industry. There will be three (3) full day workshops, on Fridays during the 2023-2024 school year where middle school girls will be paired with Architects, Engineers, and Landscape Architects to learn first-hand about these dynamic careers from professional women and design students. Program participants will engage in design activities including sketching, model building, and presentations and may include construction site visits.

Who Should Participate

Middle School girls currently in 6th, 7th, or 8th grade who are interested in architecture and design.

Everyone is welcome, but applicants must fill out an application for one of the 12 spots available and must be available to meet all three workshop days (DPS does not have school on these days).

Location

CU Denver College of Architecture & Planning
1250 14th Street, Denver, CO 80202
